Beach Advisories Lifted for St. Simons Island

GLYNN COUNTY, GA – The Glynn County Health Department has lifted the beach water advisories on St. Simons Island. The advisories were issued on September 13, 2022, after routine water quality tests showed a high level of enterococci bacteria which increase the risk of gastrointestinal illness in swimmers.

Subsequent water samples showed the bacteria levels had dropped below Environmental Protection Agency’s recommended limits; therefore, the advisories have been **lifted** for:

- Fifth Street Crossover Beach – Cedar Street to Ninth Street
- South Beach at Lighthouse – Ninth Street to the Pier
