Beach Advisories Lifted for St. Simons Island

GLYNN COUNTY, GA – The Glynn County Health Department has lifted the beach water advisories on St. Simons Island. The advisories were issued on May 10, 2022, after routine water quality tests showed a high level of enterococci bacteria which increase the risk of gastrointestinal illness in swimmers.

Subsequent water samples showed the bacteria levels had dropped below Environmental Protection Agency’s recommended limits; therefore, the advisories have been **lifted** for:

- North Beach at Goulds Inlet – Fifteenth St. to Tenth St.
- East Beach Old Coast Guard Station – Tenth St. to Driftwood Dr.

For more information about beach water advisories, go to www.coastalhealthdistrict.org and click on the Environmental Health tab at the top of the page.
