## Beach Advisories Lifted for St. Simons Island

**GLYNN COUNTY, GA** – The Glynn County Health Department has lifted the beach water advisories on St. Simons Island. The advisories were issued on June 22, 2022, after routine water quality tests showed a high level of enterococci bacteria which increase the risk of gastrointestinal illness in swimmers.

Subsequent water samples showed the bacteria levels had dropped below Environmental Protection Agency’s recommended limits; therefore, the advisories have been **lifted** for:

- North Beach at Goulds Inlet – Fifteenth St. to Tenth St.
- South Beach at the Lighthouse – Ninth St. to the Pier.

For more information about beach water advisories, go to [www.coastalhealthdistrict.org](http://www.coastalhealthdistrict.org) and click on the Environmental Health tab at the top of the page.
