Enter your **SOG.LOCAL** username and **password** to authenticate.

Welcome to the

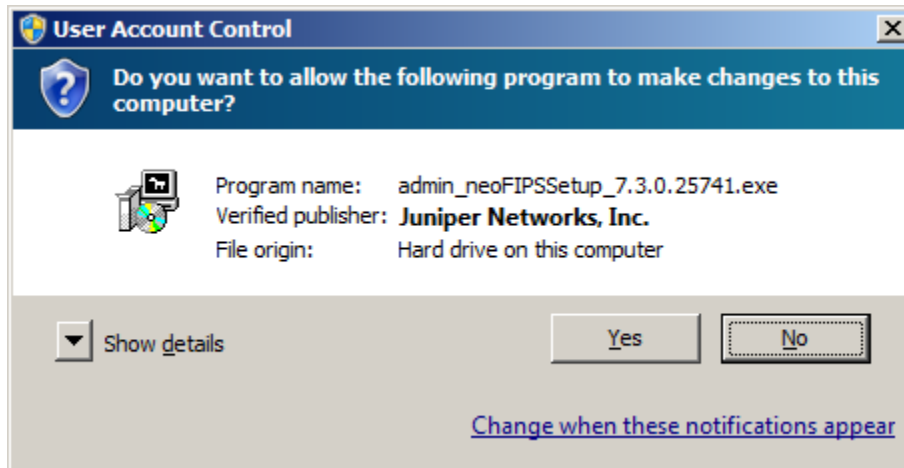

### Department of Natural Resources SSL VPN

Username

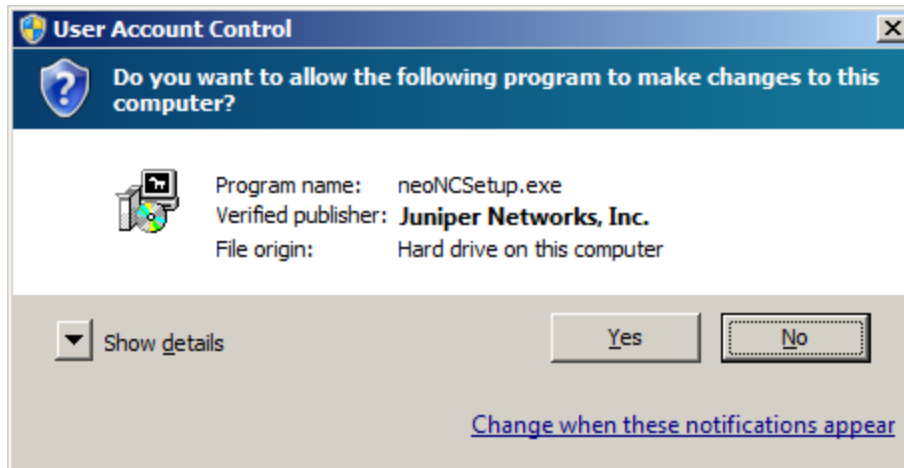

Password

You are attempting to access resources owned by the Department of Natural Resources. These resources are to be accessed by authorized users only. If you have not been specifically authorized to access these resources, do not proceed further. Unauthorized access could subject you to liability or criminal prosecution in accordance with the Georgia Computer Systems Protection Act (O.C.G.A.16-9-90). Department of Natural Resources network communications and interaction are subject to monitoring, recording, auditing, retrieval and disclosure to third parties.

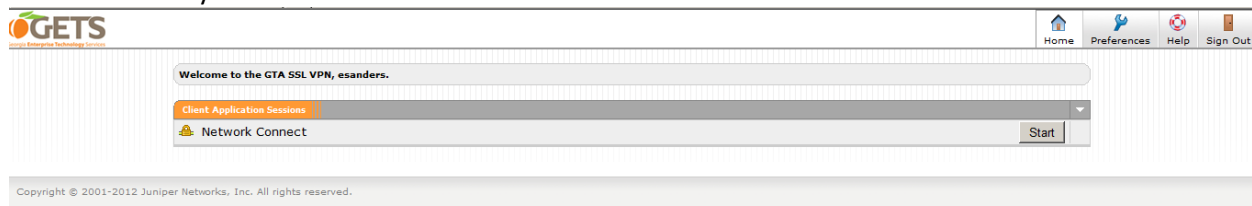

Once done network connect will download two components click yes to install.

Click yes to install

Once this loads you will be connected to SSL VPN and see the screen below

When you see this screen you can test access to your applications. You will get access to your applications the same way you would from the DNR LAN. If you connect with a client or web browser use the same path to test your applications.

Network connect should start automatically during this process. You can verify by checking for the Lock icon in the tray by the clock. If the lock icon is not there you can click on the Start button on the Splash page above.
