

## **HOW TO INTERPRET SELECTION DATA**

The following is an explanation of the selection information contained within the Quota Hunt Selection Tables. Information below provides an explanation of each column heading.

### ***The information below applies to Deer, Turkey, Waterfowl, State Park and Alligator hunts.***

- HUNT LOCATION: This refers to the Wildlife Management Area where the hunt takes place.
- QUOTA: This is how many hunters are permitted to participate in the hunt.
- TOTAL APPS: This is the total of hunters that selected the hunt either as their 1<sup>st</sup>, 2<sup>nd</sup>, or 3<sup>rd</sup> choice.
- FIRST CHOICE: The number of hunters that selected the hunt as their 1<sup>st</sup> choice.
- SELECTION ODDS FOR 1<sup>ST</sup> CHOICE BY PRIORITY (# OF 1<sup>ST</sup> CHOICE APPS): The columns contained in this section are broken out by the number of priority points the hunter assigned to their application. The first number is the percentage (%) of all applicants that chose the hunt as their 1<sup>st</sup> choice and were selected. The second number, in parentheses, is the total number of hunters that chose the hunt as their 1<sup>st</sup> choice. This selection information has been broken into applications by priority (i.e. P3 = an application with a priority of 3). If there is no information in a given box, then there were no 1<sup>st</sup> choice applications for the hunt at that particular priority level.

### ***The information below applies only to Alligator hunts.***

- ZONE: This column lists the Alligator Zone where a selected hunter is permitted to harvest an alligator. A map of the Alligator Zones is provided in the Hunting Regulations section of our Website.
