

# Triple Early Childhood Workshop

**When:** November 16 & 18

4:00 pm - 7:00 pm daily

**Where:** Virtual - Zoom **Cost:** \$55.00

*Participants must attend both sessions.*

Join Projects WET, WILD, and Learning Tree (PLT) to explore three early childhood curricula targeting ages 3-9.

Receive three curriculum guides and instruction on incorporating 49 classroom-tested activities and lesson plans into the classroom or learning environment.

*Growing Up WILD: Exploring Nature with Young Children* builds on children's sense of wonder about nature and invites them to explore wildlife and the world around them.

Project WET's *Getting Little Feet Wet* contains interactive, hands-on activities for young learners to explore different aspects of water—from water properties to water sounds.

PLT's *Environmental Experiences for Early Childhood* integrates nature-based exploration, art, literature, math, music and movement, and outdoor play into activities. It encourages children to explore, discover, and communicate in expressive ways.
