Explore Georgia’s backyard with CEWC and some of the amazing species that live here. With live native animals, we can examine Georgia’s wildlife diversity as well as GSE Science standards right in your classroom!

Charlie Elliott Wildlife Center offers five different outreach programs to schools within a 1.5 hour drive from our property. This includes the Atlanta, Athens and Macon areas. Our outreach programs are 45 minutes to an hour in length and are a great hands on way to learn about Georgia’s fascinating wildlife natural history.

The programs are designed for K-12 and can be adapted for college and private educational classes. Program pricing is a flat fee of $120.00 per visit with a maximum of three sessions per visit. Auditorium programs can also be arranged in advance on a per program fee.

**TENACIOUS TALONS**

Have you ever watched one of Georgia’s birds of prey majestically fly over only to leave you yearning for a better view? Imagine being able to meet some of these birds up close and in your classroom. Charlie Elliott Wildlife Center will bring up to three live native birds of prey and bio-facts to your room to help students discover why these animals are important to our ecosystems.

*GSE Science Standards addressed: S1L1, S2L1, S3L1, S4L1, S7L4 and SB5*

**NO BONES ABOUT IT!**

Why do some animals have bones and others not? Let Charlie Elliott Wildlife Center come to your classroom and talk about vertebrates and invertebrates by using live animals, bio-facts, and discussing the five classifications of vertebrates.

*GSE Science Standards addressed: SKL1, S2L1, S3L1, S4L1, S5L1 and SB5*

**SCALES TO TALES**

How many of us have encountered people who don’t like reptiles? Let Charlie Elliott Wildlife Center discuss the misconceptions and natural history of some of Georgia’s native reptiles. We will bring three to four live native species and bio-facts right into the classroom.

*GSE Science Standards addressed: SKL2, S1L1, S2L1, S3L1, S4L1, S7L4 and SB5*

**BACKYARD LANDFORMS**

Georgia is host to a diverse number of plant and animal species due to the variety of unique environments it has called eco-regions. With live native animals and bio-facts, Charlie Elliott Wildlife Center will help students explore the ecoregions of Georgia and what makes them distinct.

*GSE Science Standards addressed: S1L1, S2L1, S2L1, S4L1, S7L4 and SB5*

**GEORGIA’S RARE GEMS**

Georgia has over 100 species of threatened and endangered plants and animals. Discover some success stories (and some concerns) as Charlie Elliott Wildlife Center comes into your class with a few of these creatures and bio-facts to help investigate their current status in our state.

*GSE Science Standards addressed: S4L1, S7L4, SB5, SEV2, SEV4 and SEV5*
